

How to install Open VPN to access campus network

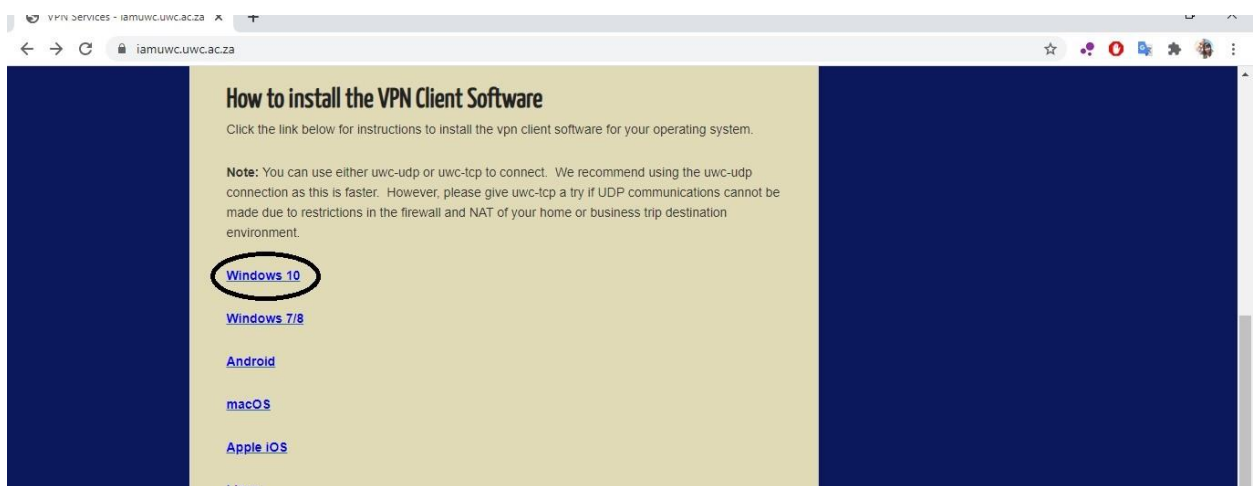

Step 1:

Go to <https://iamuwc.uwc.ac.za/>

Step 2:

Select your operating system:

Step 3:

Download the file:

Windows 10 Openvpn

1. Get the Software

- Download and install the software from [here](#) or get the latest [Windows OpenVPN Installer](#).

2. Add a VPN Configuration

- Download the openvpn configuration files [uwc-udp.ovpn](#) and [uwc-tcp.ovpn](#).
- To start the OpenVPN client, double-click on the OpenVPN GUI icon
- The OpenVPN client starts and creates an icon at the bottom right-hand corner of your screen.
- Right click on the OpenVPN client icon and select import file ...
- Select your downloaded file uwc-udp.ovpn or uwc-tcp.ovpn
- Import the configuration files

3. Connect

- To log in to the UWC VPN server, right-click on the OpenVPN GUI icon at the bottom right-hand corner and choose **uwc-udp**, then Connect.
- Alternatively, choose **uwc-tcp**, then Connect.
- The OpenVPN User Authentication will appear. Enter your UWC network login and password (same account used to log into Ikamva)
- Click on the OK button to log in.
- You are now connected through the UWC VPN.
- To disconnect, right-click on the OpenVPN GUI icon in the bottom right of your screen and choose Disconnect.

[HELP ME!](#)

- If you experience problems using the VPN contact the Help desk at (021) 959 2000 or [Email](#).

Step 11

Connect to UWC network

The screenshot shows a Windows 10 desktop environment. A web browser window is open, displaying the 'Windows 10 Openvpn' page from iamuw.ac.za. The page contains three main sections: '1. Get the Software', '2. Add a VPN Configuration', and '3. Connect'. A context menu is open over the OpenVPN GUI icon in the system tray, with the 'Connect' option highlighted. The system tray also shows the date and time as 12:25 PM on 9/23/2020.
